

To whom it may concern: It has come to my attention that the FCC is considering changes which will affect how I listen to my favorite radio station, which is K-Love. I greatly appreciate the knowledge that I can go anywhere in my area and find a K-love station where I can be encouraged and uplifted. I also appreciate the fact that a 5-second delay is not required (on these stations). With the state of music (currently) I know that don't have to subject myself or my 8 yr. old son to the garbage that fills most pop radio stations. K-Love is a service that is greatly needed in all communities. Please do not enforce any changes that would jeopardize the way that K-Love delivers it's encouraging and positive music.

Sincerely,

Cathy Carlisle
